

Answer the questions in the red boxes. If the questions are multiple choice write only the letter. If the questions do not have letter choices write the number without any spaces. When you have the correct answer and push enter, the yellow box will change color.

1 Evaluate:  $5(8x + 7) + 7$

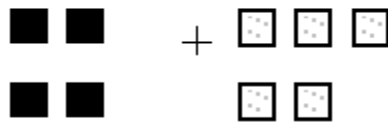

1

2  $|10| - 6$

2

3 Write the numerical expression for the model. Find the sum. Let one white tile equal +1 and one black tile equal -1.

3

4  $17 - 6(10) - 2 + 12$

4

5 Evaluate:  $6(t - 1)$ , for  $t=6$

5
